HERITAGE SIGN AND MURAL TRAIL

Experience the rich heritage of our Shire along the RESTORE: Heritage Sign and Mural Trail. This trail celebrates community, heritage and history. A restoration initiative focused on reclaiming old and damaged advertising signage that dates back decades.

We invite you to immerse yourself in the stories that these weathered signs tell. From faded messages of long-lost businesses to vibrant depictions of the past, each mural is a testament to the remarkable legacy of our community.

Visitors of all ages can embark on a treasure hunt, uncovering these unique pieces of art while discovering the history that lingers in every corner. Whether you're a local or a traveller passing through, this trail will ignite your curiosity and transport you to a bygone era.

As you roam the streets, keep your eyes peeled for these captivating murals. Marvel at the skill and craftsmanship that went into creating these advertising masterpieces. Local business owner and signwriter, Ricky Hard from Regal Signs, has completed all of these restoration projects.

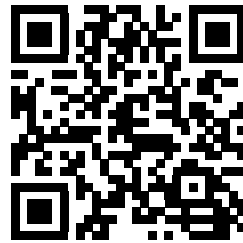

This trail is more than admiring the murals, it's about preserving our cultural heritage. This restoration project safeguards our history for future generations to appreciate.

Grab this map and set off to uncover the marvels of our Shire's Heritage sign and murals. Delight in the nostalgia, discover the untold tales and join us in celebrating the artistry that is etched into our town's very fabric.

A number of these signs are located on privately owned buildings and property, please be respectful when visiting. Please do not enter private properties.
